2024

WHO ARE WE

we're all about blending fun with the future! Through exciting drone soccer and racing programs, we help Canadian youth **dive into the world of drones and STEM.**

Our mission is to **spark curiosity** and **build skills** for drones, offering hands-on learning through school programs, community events, and family-friendly competitions.

Whether you're looking to **compete, learn,** or just **have fun,** FIDA Canada is here to make your drone journey unforgettable.

Ready to take flight? Let's soar together!

www.canadiandronesoccer.com

We are Canada's's **exclusive representative of FIDa**, the world's leading drone sports governing body.

We're Canada's best source for **drone education, training, and sport programs**, including drone soccer, drone racing, and drone technology development.

Most importantly, we help young Canadians prepare for high-tech career development by teaching them the essentials about how to operate drones for **sports competition, recreation, entertainment, and work** purposes.

VISION & MISSION

Drones are now essential for various tasks, from sports like drone soccer and racing to aerial surveys and law enforcement. We're dedicated to empowering First Nations youth and underserved communities, helping them gain education and workforce skills for fulfilling careers in the growing drone industry.

VISION

To create a network of "Drone Zones" as hubs of innovation and fun across Canada, where people can learn and enjoy drones through exciting activities like drone soccer and racing.

MISSION

Our Mission is to empower Canadians with cutting-edge drone technology training and career development, unlocking new opportunities and innovations for a better future.

2024

FUTURE IS FUN

We believe drone soccer is the gateway to successful careers. Drone soccer is the ideal gateway to lead young Canadians toward successful and rewarding careers as drone operators and other high-tech professions.

We are excited about bringing students of all ages into drone soccer leagues now being formed in 23 zones across Canada.

Drones are fun and easy to use for children of all ages. Once engaged, students continue to grow and learn to apply increasingly advanced technologies, even as they enjoy the thrill of competition with drone soccer. Our highest goal is workforce development. Drone soccer is for everyone.

FROM EVERYONE

Operators and Coaches

Our experienced drone operators teach students to safely fly drones for sports like drone soccer and racing. They also prepare youth for certification and workforce development in the drone industry.

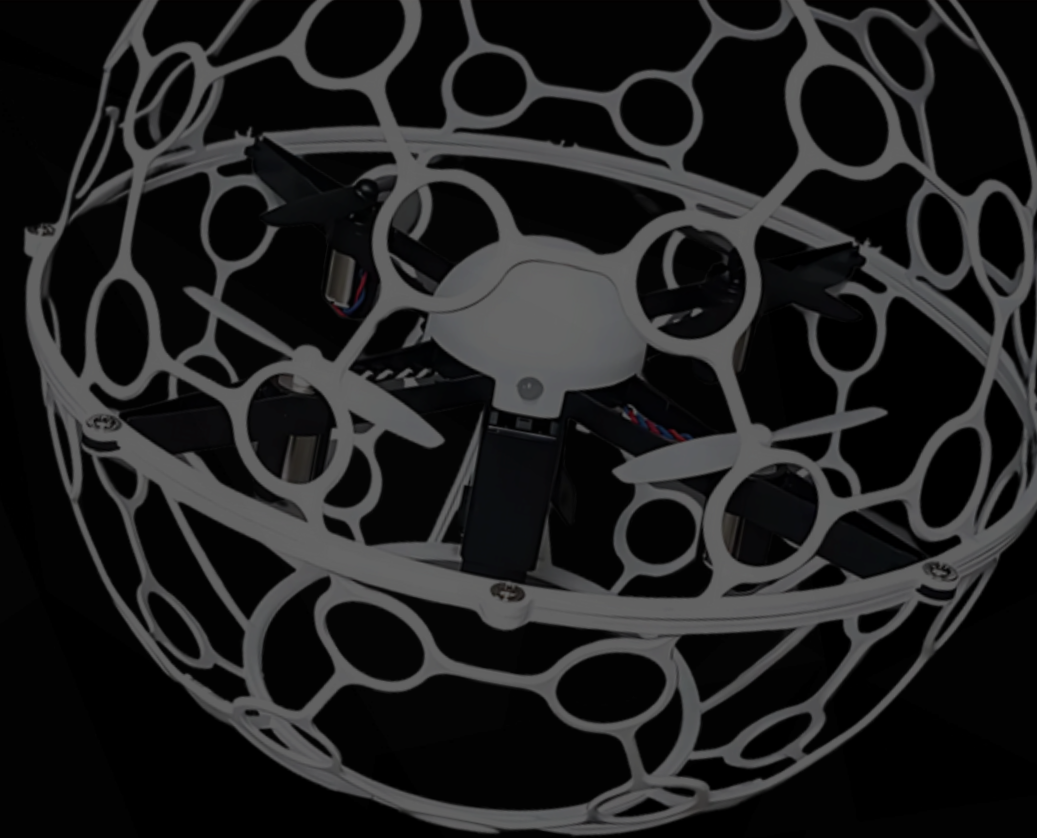

Technologists and Devs

FIDA's expert team of drone technologists pushes the boundaries of drone sports and commercial applications, constantly evolving to offer cutting-edge advancements in the field.

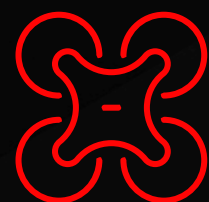

Educators and Teachers

Our team includes passionate educators who ensure both youth and adults stay updated on drone technologies, promoting lifelong learning and growth in this dynamic field.

FOR EVERYONE

We offer opportunities for students of all ages, with three levels of drone soccer:

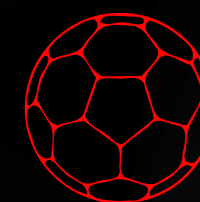

CLASS 20

✓ Class 20 with a 20-centimeter drone soccer ball for students as young as 5 years of age

CLASS 40

✓ Class 40 with a 40-centimeter drone soccer ball for high school and college students

EVOLUTION

✓ Evolution drone soccer ball for advanced students and adults
